Date: Friday, January 29, 2016 12:53:18 PM

Without getting down into the weeds, INL will remain a Title V source until such time that its current Title V permit is revoked and replaced with a synthetic minor permit.

Therefore, DEQ will need to continue processing INL's asbestos notifications, etc. until its current Title V permit is revoked and replaced with a synthetic minor permit.

Can I please get a copy of the Consent Order.

Thanks,

RC

Roylene,

As I just found out today, DOE(INL) became a **Non**-Title V facility by Consent Order, effective **December 11, 2015**. That's why (in case you were wondering) the attached revised annual CY 2015 asbestos notification was addressed to you and not me.

I took a look back at the asbestos notifications I've received from DOE(INL) since 12-11-15 (there's only 3) and the two most recent ones (regarding an Emergency Renovation at the Naval Reactor

Facility) were sent to both you and myself. INL(DOE) called me in early January 2016 to discuss that project prior to submittal of the original notification, if I had known then that they weren't Title V I would have referred them to talk with you instead.

I did receive INL(DOE)'s Annual Blanket Notification for Calendar Year 2016 on 12-22-15; it was postmarked 12-16-15. You weren't included as an addressee or cc'd on that notification so I will be sending you the original.

From now on I'll be forwarding any NESHAPS-asbestos stuff that I receive regarding INL(DOE) your way (if you're not already cc'd or an addressee).

-Tim
